Terrorism

Preparedness

Terrorism

- Terrorist Pre-Strike Preparation
  -Remote-Targeting:
     Internet and public documents
  -Surveillance
    - Types
      -Fixed
      -Mobile
      -Progressive (false alarms, leaving suspicious packages)

Terrorism

-Targeting Suitability
- Local topography
- Local policing
- Security measures
- Layout (structural, mechanical and electrical details)
- Service suppliers

Terrorism

- Surveillance Detection

  -Become familiar with what is normal:

  Change the way you view things, go to your working area by using different approach

  -Use a surveillance log

  -Do not make assumptions as to who may conduct surveillance (not necessarily an Arab)

  -If it doesn't feel right then it is probably wrong

Terrorism

- Reaction to Surveillance

  -Don't force a confrontation

  -Report/record all circumstances

  -Know reporting process

  -Call for assistance if needed

  -Don't follow suspect

Terrorism

- Meeting the Threat

  -Staff awareness

  -Security must be viewed as integral component of standard operations

  -Emergency responders need your help to deter, detect and defend against threats
