

HEALTH AND SAFETY FOLLOWING A DISASTER

Bill Gentry, Director

Community Preparedness and Disaster Management Program

Department of Health Policy and Management

Gillings School of Global Public Health

University of North Carolina at Chapel Hill

SAFETY AFTER A DISASTER: RE-ENTRY

- In re-entering your facility after a disaster event:
 - ◆ Follow the guidance of local emergency management officials
 - ◆ Follow the directions of local law enforcement
- If you need special entry, arrange it now.... and be prepared to justify.
- Obtain proper clearance credentials, and do not expect law enforcement to grant you entry without it.

RE-ENTRY (CONT)

- If you do gain special entry:
 - ◆ Do not assume your facility is “safe.”
 - ◆ Use common sense (as well as the rest of your senses)

- Common safety hazards after a disaster:
 - ◆ Unstable building materials
 - ◆ Electrical hazards
 - ◆ Gas hazards
 - ◆ Chemical hazards
 - ◆ Usually not a hazard, BUT..... People hazards

HEALTH CONCERNS AFTER A DISASTER

- Physical concerns:
 - ◆ Hydration, heat /cold and rest
 - ◆ Particulate, oil and chemical residues
 - ◆ Mold
- Mental Health Concerns
 - ◆ Stress
 - ◆ Delayed stress
 - ◆ Depression
- If your facility was untouched...your employee's home may not have been so lucky.

**DISASTER OR RISK MANAGEMENT
PLANNING NOW, WILL AFFORD YOU
BETTER HEALTH AND SAFETY
AFTER A DISASTER!**
